NEW PRODUCT GENERATION

No more trouble
**with rusty hot
water storage
tanks!**

No more trouble with rusty hot water storage tanks!

With the new CORREX, you can protect hot water storage tanks faster and more sustainably without constant maintenance or worries. Rely on over 50 years of experience and secure the best solution for long-lasting corrosion protection!

Developed with and for you: The new generation of CORREX makes corrosion protection faster, easier, and more effective than ever.

Easier installation, maintenance & eternal protection.

-  Longer protection than any sacrificial anode
-  Save 25 minutes on each maintenance compared to a traditional sacrificial anode
-  1 CORREX – 2 Tanks: Protect one or two water heaters with a single device
-  Even faster installation with the simple plug-in system (SmartConnect)
-  SmartConnect plug system prevents polarity reversal
-  Optional integrated temperature measurement and legionella warning
-  Compatible with all common heating systems and heat pumps
-  Display with easy installation and maintenance assistance
-  For enamel and stainless steel tanks up to 2 x 1.000 l

Information: Features vary by product. Detailed information can be found on the website.

Simply smart.

The SmartConnect anode plug!

With the new SmartConnect plug system, installation is even faster. One anode, one plug, done! Polarity errors and other installation problems are now a thing of the past.
